

Ecoflex 2 & Ecoflextra Totem

Extra tall panels for maximum impact.

- 3mm thick Aluminium Composite (ACM) panels.
- Variable height up to maximum shown below.
- Ideal for screen/digital print or vinyl graphics.
- Unique patented wedge means assembly and disassembly in seconds with no tools required.
- Recycled PVC base offers good stability.
- Suitable for indoor or sheltered outdoor use.
- Totem panels can **only** be used in Ecoflex 2 or Ecoflextra bases which are manufactured to suit a 3mm thick panel.
- Made to order (no minimum order quantity).
