

Roller Banner

850 x 2000 mm

■ Bleed Area

This area should be used to allow colours or images go right to the edge of your banner. Anything in the red area will either be trimmed off or hidden by the mechanism. Keep all important information within the dotted line safe zone.

□ Safe Area (830mm x 1930mm)

Keep all your information within the dotted line.

Images can extend beyond this zone but will be trimmed off at the edge of the white area. Use images with high resolution (300dpi) for best results.

Remember, this layer should be deleted after use.
